Kim H., Group Leader

DAY 1: FLY TO ECUADOR

- Meet your Tour Director at the airport in Quito, the Ecuadorian capital carved into a narrow plateau high above the Andean valleys, beneath the peaks of the Pichincha Volcano. Here you'll explore the colonial quarter, where wrought-iron balconies and majestic stone pillars grace 300-year-old plazas, churches and palaces. The area was declared a UNESCO World Heritage Site in 1978. At the Intinan Museum, discover how the Incas determined the middle of the Earth. Pose for a photo on the equator, the namesake of Ecuador. If you've ever wanted to stand in both hemispheres at the same time, this is your chance.

DAY 2: QUITO

- Take a tour of Quito: Independence Plaza; Government Palace
- Visit the Santo Domingo Monastery
- Take an excursion to the equatorial line
- Visit the Intinan Museum
- Take a salsa dance lesson

DAY 3: BALTRA | ISABELA ISLAND

- Fly to Baltra
- Continue on to Isabela Island, the largest of the Galápagos Islands and nearly four times the size of Santa Cruz, the second largest of the Galápagos. The wildlife, flora and fauna are beyond compare, offering up close encounters with wild tortoises, goats, penguins, exotic birds and more. The west coast of Isabela is also noted as the best place in the Galápagos to view whales and dolphins.

DAY 4: ISABELA ISLAND

- Enjoy a full day of activities on Isabela Island. You'll explore a volcano walk, visit a pink flamingo habitat, go snorkeling and check out all of the wildlife, from penguins and sea lions to iguanas and exotic birds.

DAY 5: SANTA CRUZ ISLAND

- Board a boat and continue on to Santa Cruz Island. In 1959, the archipelago was declared a national park in order to protect the flora and fauna that Charles Darwin observed while formulating his theory of evolution. Critical to his studies were the islands' iguanas, penguins, flightless cormorants and 13 species of finches, whose beak sizes and shapes provided invaluable insights into the process he called natural selection. At the Charles Darwin Research Station, see the breeding center for the giant tortoises from which the islands took their name. Discover the unique wildlife of neighboring islands on boat excursions. Photo opportunities will be endless, but please remember that the islands' ecosystems are fragile. Park regulations are designed to protect the area for future generations.
- Visit the Charles Darwin Research Station
- Travel to Santa Cruz Highlands to see giant tortoises out in the wild

DAY 6: SAN CRISTÓBAL ISLAND

- Enjoy a boat excursion to San Cristóbal Island, the oldest permanent settlement of the islands and where Darwin first went ashore in 1835. With a small lake located at the top of the island, it remains the only source of permanent fresh water in the islands.
- Spend the afternoon exploring San Cristóbal. You'll hike up Tijeretas Hill, visit the San Cristóbal Interpretation Center, go snorkeling, and enjoy a beautiful coastal walk along La Lobería.

DAY 7: SAN CRISTÓBAL | QUITO

- In the morning, choose between a short walk to Punta Carol, a picturesque beach where you'll see marine iguanas, sea lions and blue footed boobies, or head into town and spend the morning shopping local crafts and shops.
- Transfer to the San Cristóbal airport for your afternoon flight to Quito

DAY 8: OTAVALO | COTACACHI | QUITO

- Visit the market towns of Otavalo and Cotacachi. Surrounded by the Imbabura, Cotacachi and Mojanda volcanoes, Otavalo is a small farming town known for its textiles. Otavaleña women traditionally wear lace blouses with dark skirts and a colored band around their waists. You'll have the opportunity to shop for handmade goods and other souvenirs crafted by the area's local residents at one of the largest craft markets in the country. And don't think that handicrafts are the only thing you will find here—you can purchase anything from musical instruments to a meal. Plus, the market offers a unique glimpse into traditional Andean culture, as locals have frequented the markets for hundreds of years.
- Return to Quito
